BIO

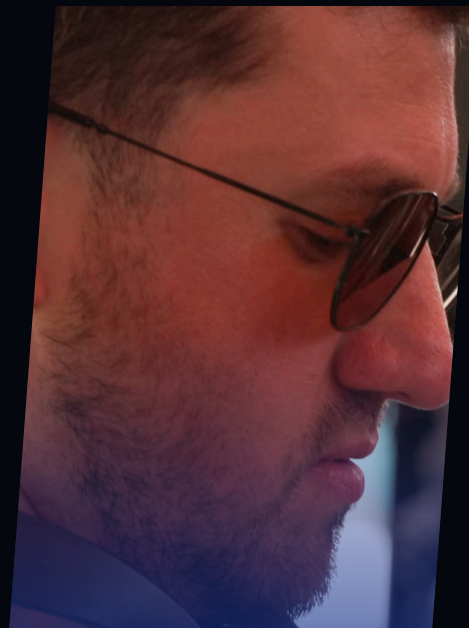

BIO

Alexis Andermatten is an Argentine DJ shaped by the electronic scene of Córdoba. Alexis began in 2015 playing social events, from quinceañeras to weddings, and those years taught the essentials of the craft: reading the floor and holding the energy for very different crowds.

In 2023 Alexis trained as a DJ at the Orbital academy, specialising in electronic music. In 2026 Alexis studied music production at the same academy, broadening Alexis's knowledge of electronic music creation.

The sound leans heavily on Progressive House and Indie Dance, with Melodic House and Tech House adding shades. The sets build with patience: they open with atmosphere, grow with melody and land on the floor with emotion and movement.

The track record includes series and venues of the Córdoba scene, such as Orbital Showcase, Sequence, Diskonnect, Frequency and El Boticario de Güemes, and line-ups shared with The Sirius, Lula Oliva, Los German's and Shayanne. In a club, on a terrace or by the river, as at the Río de Cosquín set, the aim is for music to be a meeting point: a way to connect and to enjoy together.

SOUND

SOUND

Progressive House and Indie Dance sit at the centre of the sound; Melodic House and Tech House add colour to each set.

PROGRESSIVE HOUSE

Sets that build step by step: atmosphere first, melody rising, a floor that answers.

INDIE DANCE

A lighter pulse and a pop feel for the open stretches of a set.

MELODIC HOUSE

Pads, vocals and melodies that carry the emotion of a set.

TECH HOUSE

Direct groove and defined basslines to hold the floor.
